

## **Acasti Expands Global Patent Portfolio with Newly Granted Patents in South Korea and Canada**

**LAVAL, Québec, January 4, 2018 -- Acasti Pharma Inc.** (NASDAQ:ACST – TSX-V: ACST), an emerging biopharmaceutical company focused on the research, development and commercialization of its prescription drug candidate CaPre<sup>®</sup> (omega-3 phospholipid) for the treatment of severe hypertriglyceridemia, today announced the granting of a patent by the South Korean Patent Office and the granting of a corresponding patent by the Canadian Intellectual Property Office, further strengthening the international intellectual property position of CaPre.

The granted patents are valid until 2030 and relate to a concentrated phospholipid composition and method of using same for treating or preventing disorders associated with cardiovascular diseases. These patents add to Acasti's growing portfolio of issued patents in the United States, Taiwan, Australia, China, Japan, Mexico and Panama. Patent applications with similar claims are being pursued in several other jurisdictions.

"The granting of these additional patents further increase the global commercial opportunities for CaPre," highlighted Pierre Lemieux, Ph.D, Acasti's chief operating officer. "Both patents strengthen the competitive barriers for CaPre and provide market access to the Canadian and South Korean pharmaceutical territories, both of which have strong commercial potential for CaPre."

### **About CaPre (omega-3 phospholipid)**

Acasti's prescription drug candidate, CaPre, is a highly purified omega-3 phospholipid concentrate derived from krill oil and is being developed to treat severe hypertriglyceridemia, a metabolic condition that contributes to increased risk of cardiovascular disease and pancreatitis. Its omega-3s, principally EPA and DHA, are either "free" or bound to phospholipids that help them to be better absorbed into the body. This allows for enhanced bioavailability and EPA and DHA blood levels compared to the "esterified" fish-oil omega-3 options such as LOVAZA.

### **About Acasti Pharma**

Acasti Pharma is a biopharmaceutical innovator advancing a potentially best-in-class cardiovascular drug, CaPre<sup>®</sup> (omega-3 phospholipid), for the treatment of hypertriglyceridemia, a chronic condition affecting an estimated one third of the U.S. population. The corporation's strategy is to initially develop and commercialize CaPre for the 3 to 4 million patients in the U.S. with severe hypertriglyceridemia. Since its founding in 2008, Acasti Pharma has focused on addressing a critical market need for an effective, safe and well-absorbing omega-3 therapeutic that can make a positive impact on the major blood lipids associated with cardiovascular disease risk. ### **Forward Looking Statements**

Statements in this press release that are not statements of historical or current fact constitute “forward-looking statements” within the meaning of the U.S. securities laws and Canadian securities laws. Such forward-looking statements involve known and unknown risks, uncertainties, and other unknown factors that could cause the actual results of Acasti to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements which explicitly describe such risks and uncertainties, readers are urged to consider statements labeled with the terms "believes," "belief," "expects," "intends," "anticipates," "will," or "plans" to be uncertain and forward-looking. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. The forward-looking statements contained in this news release are expressly qualified in their entirety by this cautionary statement and the “Cautionary Note Regarding Forward-Looking Information” section contained in Acasti’s latest Annual Information Form, which also forms part of Acasti’s latest annual report on Form 20-F, and which is available on SEDAR at [www.sedar.com](http://www.sedar.com), on EDGAR at [www.sec.gov/edgar.shtml](http://www.sec.gov/edgar.shtml) and on the investor section of Acasti’s website at [acastipharma.com](http://acastipharma.com) (the “AIF”). All forward-looking statements in this press release are made as of the date of this press release. Acasti does not undertake to update any such forward-looking statements whether as a result of new information, future events or otherwise, except as required by law. The forward-looking statements contained herein are also subject generally to other risks and uncertainties that are described from time to time in Acasti’s public securities filings with the Securities and Exchange Commission and the Canadian securities commissions. Additional information about these assumptions and risks and uncertainties is contained in the AIF under “Risk Factors.” Neither NASDAQ, the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accept responsibility for the adequacy or accuracy of this release.
